## PROFILE SUMMARY

Enthusiastic and detail-oriented BS Artificial Intelligence student with skills in web development, machine learning, and IoT systems. Proficient in JavaScript, Python, and modern frameworks like React and Next.js. Hands-on experience in academic and personal projects involving AI model deployment, Firebase integration, and distributed computing. A fast learner and team player with a strong commitment to delivering high-quality, user-centric solutions.

## EDUCATION

2022-present

### NATIONAL TEXTILE UNIVERSITY

- Bachelor of Science in Artificial Intelligence
- Currently in 6th semester
- Previous SGPA 3.65

## PROJECTS

- TalentTrail-Find and Post Internships/Jobs (Web)
- Sign Language Detector(Python)
- Fitness Tracker Web App
- Clinic Database system(OOP)
- Code Breaker(C++)
- Restaurant Ordering System(DSA)
- Automated Solar Panel Cleaning system (IoT+ML)

## SKILLS

- Programming Languages: Python, JavaScript, C++
- Kali Linux/Parrot OS
- Machine Learning: TensorFlow, PyTorch, Scikit-learn
- Deep Learning: CNNs, RNNs, Transformers
- Data Science: Pandas, NumPy, Matplotlib, Seaborn
- Computer Vision: OpenCV, Mediapipe
- Web Development: React.js, Node.js, Express.js, MongoDB
- Cloud & Deployment: AWS, Firebase, Vercel
- Tools & Platforms: Jupyter Notebook, VS Code, Git, Docker

## WORK EXPERIENCE

### Remote Internship at Zidio Development

- January 2025 - February 2025
- Domain: Full Stack Development

### Remote Internship at Developers Hub Corporation

- March 2025 - May 2025
- Domain: AI/ML

### Trainer: Cyber Security Society
