About Me

I am a front end developer and React.js specialist currently studying AI. I have a strong background in creating dynamic, responsive websites using HTML, CSS, JavaScript, and React, with a focus on user-centric designs and interactive features. I am passionate about front-end development and continuously advancing my skills

Skills

- Html/Css

- Python
- Kali linux/Parrot OS
- C#/C++
- Assembly Language
- Bash Language
- SQL Server
- MS Word
- MS Excel
- MS PowerPoint
- Canva

Education

Bachelor of Science in Artificial Intelligence   2022–present
National Textile University

FSC Pre-Medical   2020–2022
Kips college, Faisalabad

Matriculation   2018–2020
The Smart School

Projects

Fitness Tracker

A responsive fitness tracker built with React.js and Vite, featuring a user-friendly dashboard, progress charts, goal-setting, and activity logging. It combines clean design with engaging animations, making it easy for users to track workouts and monitor fitness goals across all devices.

Nutrisync

A React-based nutrition website offering personalized diet plans, wellness tips, and a built-in BMI calculator. NutriSync features a cohesive design with engaging animations, clear navigation, and tools to track nutrition goals, making healthy living easy and enjoyable.

School management Web

The School Management App is a React.js project that simplifies school administration. It features class management, syllabus tracking, and dedicated pages for each class. The app offers a professional design with engaging animations and 3D effects, ensuring an intuitive experience for students, teachers, and administrators.

Sign Language Detector

The Sign Language Detector is an AI project using Python, OpenCV, and Mediapipe to recognize gestures in real-time. Powered by a Random Forest classifier, it bridges communication gaps, offering an accessible tool for individuals with hearing or speech impairments.

Achievments

- Senior Co-Ordinator in cyber security
- Attended various Webinars
- Certificates of multiple skills
- Front End Development Projects
